

It's Time to Take a Census....

Introduction

May we have your cooperation in a census of foreign Perfins? The object of the census is to find out just how many different Perfins we are dealing with in our various cataloging efforts--and to try to separate private Perfins from the various official Perfins that have been used in some countries.

Please review the illustrations below before you begin working on this form. Note that there are a number of Perfins that are not private patterns but rather were used as officials, or to cancel something, or for some other purpose. Please make every effort to distinguish between private and the other types of Perfins when you complete this form.

We are asking for three specific items of information:

- The number of different private Perfin patterns you have for each country,
- The number of other types of Perfins you have for each country, and
- Any Perfins, of whatever type, you have on postal stationery, revenues, or other material.

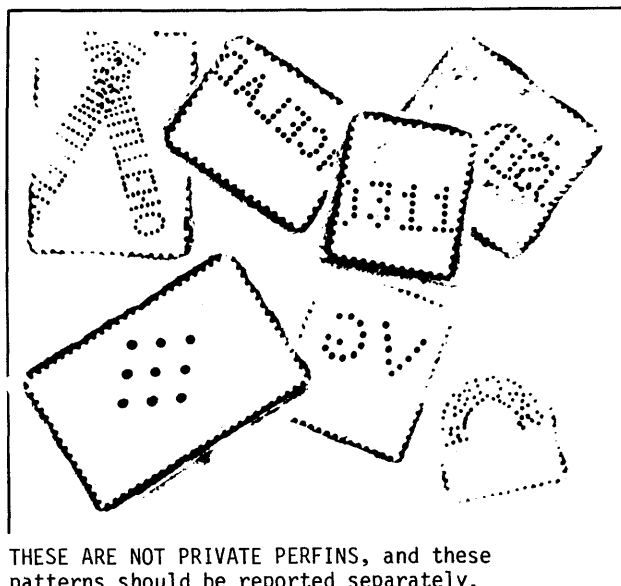

A typical entry might look something like this.

PRIVATE PATTERNS OTHERS, SUCH AS
 OFFICIALS, SPECIMEN
 PERFINs, AND SO ON

CYPRUS 5 - 3 - "GC" on Postal card

 COMMENTS AND OTHER INFORMATION

Remember to list the number of private Perfin patterns first. And remember also that the number you give should be different patterns, not different stamps. If you have the same pattern on four issues, list the one pattern, not the four issues.

THESE ARE NOT PRIVATE PERFINs, and these patterns should be reported separately.

The Perfins Bulletin, July-August 1977

Please be careful in preparing your listing. If you have any questions, drop a note to Bob Schwerdt and he'll clarify things for you.

We've left extra space at various spots throughout this listing so you can include countries that are not on the list or so you can make notes about specific items you have in your collection.

We've set up this form so it can be detached from the roster without damaging the page sequence. If you prefer, you can submit a Xerox copy of the form and we do recommend that you keep a Xerox copy for your own files.

Your cooperation is important. Every little bit of information helps. Even if you have only a stamp or two, you might be able to provide some vital information.

Please mail completed forms to the foreign catalog coordinator
